PROFILE

Creative production specialist at the intersection of generative AI, art direction and post-production. I build AI-driven image, video and audio pipelines and finish them to broadcast-grade commercial standards for global advertising clients.

EXPERIENCE

AI Specialist (Hybrid) — Hogarth Aug 2024 – Present

- Produce image, video and audio content for global brands, combining creative direction, generative AI, motion design and post-production.
- Integrate Kling, ComfyUI, Luma and ElevenLabs into ideation, image, video, voice and sound workflows, speeding up creative production.
- Finish AI-generated material in Adobe Premiere, Photoshop and Audition to premium standard for advertising, social and branded content.
- Work with creative teams, photo retouchers, 3D artists and filmmakers to take concepts from idea to final delivery.
- Clients include The Coca-Cola Company, Mondelēz International, Toyota, Heineken Group, Iberdrola and Google.

Graphic Designer (Remote) — Graphomedia Feb 2023 – Aug 2024

- Designed logos and visual identities for small businesses using the Adobe Creative Suite.
- Produced banners, posters, business cards and stationery for print and digital, keeping branding consistent across formats.
